

Nikhil Mishra

Full Stack Developer

mishran.2003@gmail.com | +91 7972458025 | Github | Leetcode | Codechef | Portfolio | LinkedIn

PROFESSIONAL SUMMARY

Full Stack Developer and MCA student (9/10 CGPA) with hands-on experience building production web and mobile applications using React, Next.js, React Native, Node.js, and PHP. Shipped a live consultation app on Google Play and built REST APIs, JWT authentication, and real-time messaging systems. Gold Medal winner at the Technocase Hackathon, with IIT Bombay certifications in Python and Machine Learning and a growing focus on AI/ML.

EDUCATION

Sandip University, Nashik Master in Computer Application (MCA)	2024 – 2026 CGPA: 9/10
Commerce management and Computer Science, Nashik Bachelor in Computer Application (BCA)	2021– 2023 CGPA: 7.6/10
Boy's Town Public High School, Nashik Class XII (Higher Secondary Certificate) - HSC Board	2019–2021 Percentage: 75.6%

PROFESSIONAL EXPERIENCE

Andesoft Consulting Pvt Ltd Full Stack Developer Intern, Software Department	June 2026 – Aug 2026
- Delivered production frontend and backend features using JavaScript, Node.js, and PHP, serving 500+ users. - Engineered REST APIs for user management, content workflows, and engagement features, handling 5000 requests/day. - Reduced unnecessary re-renders and improved page load time from 3s to 400ms through component optimization. - Resolved 20+ QA bugs through code reviews and daily stand-ups with a team of 10+ developers. - Debugged and updated an internal tool, fixing 10+ bugs and reducing rendering and report error by 10%	
Thejaastro Freelance, Frontend Developer	Nov 2025 – April 2026
- Shipped a live astrology consultation app on Google Play 100+ downloads with a team of 3+ developers over 5 months. - Architected React Native flows for authentication, wallet, chat, calls, and session management. - Safeguarded user workflows with JWT authentication and protected navigation. - Optimized UI responsiveness and loading states, reducing screen load time from 6s to 700ms	

PROJECTS

Change Request Tracker PHP, MySQL, jQuery, Bootstrap, HTML5, CSS3	
- Delivered a full-stack request system that replaced manual tracking and improved team efficiency by 30%. - Built PHP and MySQL workflows for request submission, status tracking, and resolution. - Secured passwords with hashing and sensitive data with AES encryption - Designed a responsive Bootstrap frontend that unified internal and client requests, reducing resolution time to 2 days.	
Personal Finance Platform Next.js, TypeScript, NeonDB, Clerk	Github Link
- Launched a full-stack budget tracker on Vercel using Next.js, TypeScript, and Tailwind CSS. - Built 30 REST endpoints with Hono.js, DrizzleORM, and NeonDB (PostgreSQL) to manage transactions, accounts, and categories. - Integrated Clerk authentication and built a dashboard summarizing financial status. - Styled a fully responsive, modern UI with Tailwind CSS for consistent experience across devices.	
Talklio React Native, Expo, TypeScript, Socket.io	Github Link
- Developed real-time messaging and call signaling with Socket.io, with under 0.1s latency tested with 4 concurrent users. - Independently built development of a chat and calling app in React Native (Expo) and TypeScript with Firebase and Expo. - Structured global state with Zustand and file-based navigation with Expo Router. - Crafted native-feel animations and gestures using Reanimated and Gesture Handler to enhance UI/UX. - Connected Node.js and REST APIs for authentication, contacts, and chat history.	

TECHNICAL SKILLS

- Languages: C, C++, JavaScript, Python, TypeScript, HTML5, CSS3, PHP, SQL, MySQL
- Frontend: React.js, Next.js, React Native, Expo, Tailwind CSS, Bootstrap, jQuery, Zustand, Expo Router, Reanimated, Gesture handler
- Backend & Databases: Node.js, Express.js, Hono.js, Flask, RESTful APIs, Socket.io, JWT, MongoDB, MySQL, PostgreSQL, DrizzleORM
- Tools and Platforms: Git, GitHub, Postman, Vercel, EAS Build, Clerk, CI/CD Basics, Firebase, Google Play Console

ACHIEVEMENTS AND CERTIFICATIONS

- Won 1st rank and Gold Medal in the Technocase Hackathon for developing an innovative technical solution.
- Completed certified Python Programming training through IIT Bombay's FOSSEE program.
- Completed Machine Learning with Python certification from IIT Bombay and Infosys Springboard.
- Maintained 55+ GitHub contributions across personal and collaborative development projects.
